

WAITING FOR  
**SUMMER SCHOOL 2018**  
FIFTH EDITION September 12 - 22

## NEW PARCO OVEST

2ND EDITION

## ARCHIPELAGO CITY OF BERGAMO

DESIGN A HYBRID PARK: PUBLIC ORNAMENTAL EXPERIMENTAL

The **2018** edition of the **Summer School** stems from the collaboration between **Weihenstephan University** and **Università degli Studi di Bergamo**, coordinated by the **Bergamo Landscape & Garden Institute**.

The design theme is the **BIO PARK**, which involves the peripheral areas of Bergamo, building a plant archipelago made up of different components, productive and recreational,

ornamental and experimental, creating a new public park - ecological corridor.

This year's Summer School explicitly refers to the idea of **Freespace** theme of the **XVI International Architecture Exhibition of La Biennale di Venezia**.

During the Summer School a visit to the international exhibition and at the Italian Pavilion - Arcipelago Italia is scheduled.
